

# BIOSECURITY

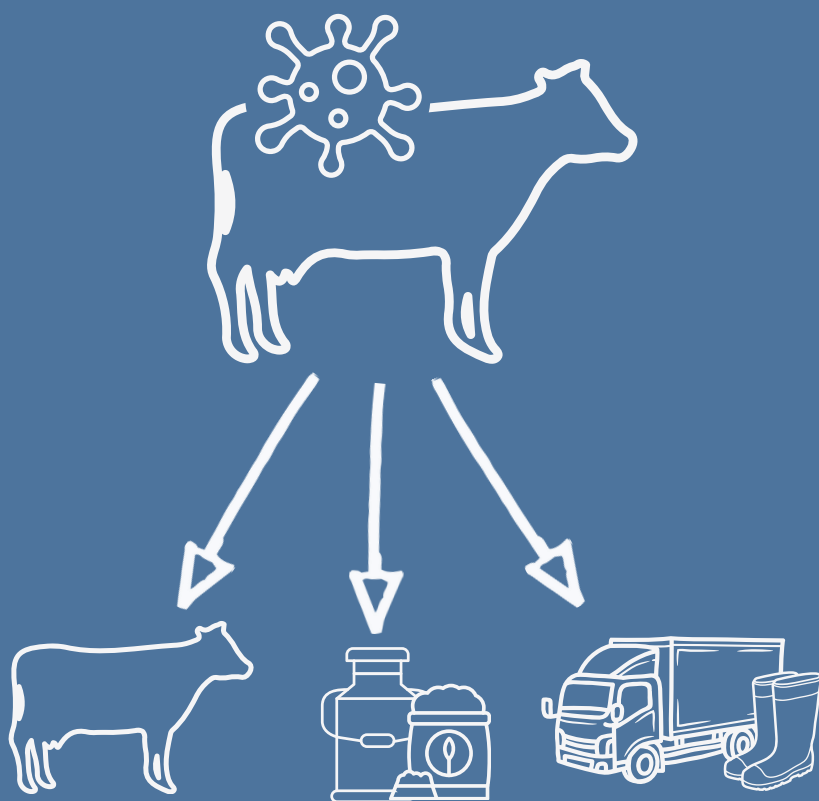

## FOOT-AND-MOUTH DISEASE

Foot-and-mouth disease is a highly infectious viral disease that affects animals such as cattle, pigs, sheep, goats, and wild ruminants.

**FMD is not dangerous for humans.**  
FMD cannot be transmitted to humans by consuming animal products or from person to person.

### INFECTION

### BIOSECURITY

- Respect the guidelines
- Do not enter farms
- Do not feed leftovers to farm animals

**Farmers are taking precaution to protect their animals!**  
**Foot-and-mouth disease poses no risk to human health!**
